

Welcome to Inka AS, located in beautiful Bjørnafjorden, Norway.
We are excited to announce that we are building a brand new factory
– opening in august 2020

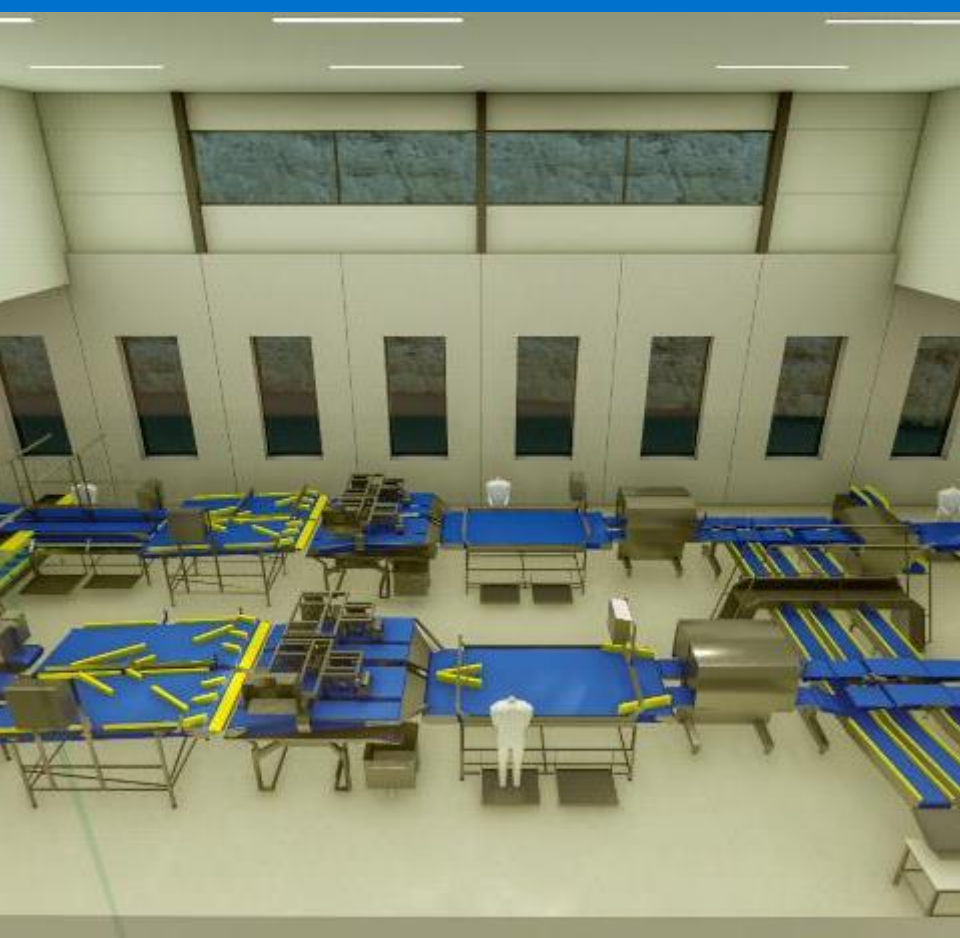

New modern factory - over 5000 m²

- Inka AS is investing in the future.
- Brand new factory for producing value added products of salmon and trout.
- Production lines from Marel, software from Innova.
- Three new vacuum machines from Weber.
- Modern and flexible production- and office facilities
- New cleaning facilities for handling wastewater.
- Energy efficient solutions for operations and production.

Our production lines

- High efficiency
- Flexible production
- High use of automation and robotics
- Focus on hygienic design
- Good quality only
- High yield-grade
- Focus on documentation and traceability
- Safe working environment

Showroom

Our guests have a total overview of the production area from our showroom.

We're looking forward to august 2020 and the opening of the most modern processing factory of its kind.
